

Conflicts of Interest Prevention and Management Policy of Haitong Bank S.A.

Approved by the Executive Committee
17 of September 2019

1 Introduction

Haitong Bank, S.A. and/or its branches and subsidiaries (collectively, the “**Bank**”) carry out diverse business activities, interacting with multiple stakeholders. In the course of its regular activities, the Bank faces actual and potential Conflicts of Interest on a regular basis and seeks to ensure it is able to properly and effectively identify and prevent or manage potential conflicts that may arise. This Conflicts of Interest Prevention and Management Policy (the “**Policy**”) sets the framework of the Bank’s strategy regarding the identification and prevention or management of Conflicts of Interest.

This Policy shall be implemented in all branches and subsidiaries of the Bank taking into consideration any local requirements.

2 Legal and Regulatory framework

This Policy is based on the current, national and European, legislation applicable, including without limitation:

- (MIFID II) Directive 2014/65/EU (especially article 23);
- Delegated Regulation 2017/565 (especially article 33 to 35);
- Portuguese Securities Code
- EBA Guidelines (especially regarding internal governance - Guidelines 94 to 116);
- Bank of Portugal White Paper (May 2016).

2.1 Other relevant Haitong Bank documents:

This Policy shall be applied in conjunction with other internal rules, namely:

- Code of Conduct
- Policy On The Selection And Assessment Of Members Of The Management And Supervisory Bodies And Key Function Holders
- Related Parties Policy
- Prevention and Management of Conflicts of Interest Procedure
- Restrictions and Personal Account Dealing by Employees

This Policy was established taking into account the dimension, organisation, nature and complexity of the Bank's activities, as well as the circumstances that may give rise to conflicts of interest resulting from the structure and commercial activities of other companies within the Bank, and should be revised periodically or anytime there is a material change to the size, organization, nature and complexity of the Bank's activities.

The set-up of a new Business Area or the modification of existing ones, namely through the recourse to third-party entities, must comply with the Policy. The Board of Directors shall ensure that its policies, procedures and controls are appropriate for complying with its conflicts of interest identification, prevention and management duties and that these duties are effectively fulfilled.

In this context, the Bank shall, in line with this Policy, ensure that any deficiencies, related with conflict of interests, are properly addressed.

The Policy was approved by the Executive Committee, subject to a prior endorsement by the Corporate Governance Committee, and its assessment and monitoring shall also be evaluated by that body that is responsible for its periodical review, on at an least annual basis.

3 To whom it applies

This Policy applies to all "**Relevant Persons**". For the purpose of this Policy, **Relevant Persons**, means any of the following:

- (a) The Members of the Board of Directors;
- (b) Members of the Supervisory Board;
- (c) Those persons who effectively manage or supervise each of the Business Activities;
- (d) All staff of the Bank or entities subcontracted by the Bank (here "staff" includes any person acting in the name of and/or on behalf of the aforementioned entities, for example, on the basis of a labour, provision of service, a professional internship or agency relationship);
- (e) Former staff of the Bank whose employment contract has ended less than 5 years ago (in relation to actions or omissions occurred during the life of the employment contract of such former staff);

- (f) The director, partner or equivalent, or manager of any tied agent of the Bank.

For the purpose of the present Policy, “**Related Person**” means any of the following:

- a) The spouse of the relevant person or any partner of that person considered by national law as equivalent to a spouse;
- b) A dependent child or stepchild of the relevant person;
- c) Any other relative of the relevant person who has shared the same household as that person for at least one year on the date of the personal transaction concerned;

4 What are Conflicts of Interest

A Conflict of Interest occurs when an entity or individual have competing interests and the serving of one interest may involve the detriment of another. A Conflict of Interest under this policy is defined as an actual Conflict of Interest as well as a potential Conflict of Interest. It also includes the perspective of a perceived Conflict of Interest (a situation that may give rise to the perception of a Conflict of Interest, even though a Conflict of Interest may not in fact exist).

Some conflicts are not permitted by law but others are allowed provided that the Bank sets out appropriate measures to manage them.

The consequences that result from a failure to identify and adequately manage conflicts of interest can be, amongst others, reputational damage, loss of clients or business, litigation and sanctions. Annex 1 includes a non-exhaustive list of examples of potential situations of conflict in order to assist all members of staff in the identification of situations that may need to be properly assessed.

Conflicts may arise in the following situations:

- (a) Conflicting interests between the Bank* and a Client;
- (b) Conflicting interests between an entity acting in the name of and/or on behalf of the Bank (including, amongst others, subcontracted entities) and a Client;

* For the purpose of identifying the interest of the Bank and the possible conflict with the interest(s) of the Client(s), one must take into consideration possible interests of other entities within the Bank’s group that have an impact on the definition of the Bank’s interest.

- (c) Conflicting interests between a **Relevant Person** and a Client;
- (d) Conflicting interests between two or more clients of the Bank in the context of client's relationships;
- (e) A **Relevant Person** (or Related Person) receives a financial or other significant benefit as a result of the Relevant Person's position in Haitong Bank that is inappropriate in nature.
- (f) A **Relevant Person** existing financial or other interest or previous engagement in an activity or relationship with another person, impairs or could impair his or her judgment or objectivity in carrying out his or her duties and responsibilities to the Group;
- (g) A **Relevant Person** in the Bank performing or taking part in external engagement, entails a risk that the Relevant Person ability to perform his/her work in Haitong is affected;
- (h) A **Relevant Person** has the opportunity to influence the Bank, granting business or making administrative and other material decisions in a manner that leads to personal gain or advantage for the Relevant Person or a Related Person;
- (i) A **Relevant Person's** personal or professional relationship with an external stakeholder (i.e. material suppliers, consultancies or other service providers) impairs or could impair his or her judgment or objectivity in carrying out his or her duties and responsibilities to the Bank;
- (j) A **Relevant Person's** economic interests (i.e. shares, other ownership rights and memberships, financial holdings and other economic interests in commercial customers, intellectual property rights, loans granted by HB to a company owned by staff, membership in a body or ownership of a body or entity with conflicting interests);
- (k) Related party transactions (analyzed in the ***Related Parties Policy***).

5 Bank's approach to Conflicts of Interest

The Bank is organised in such a way as to be able to identify possible conflicts of interest and to take action to avoid or minimise the risk of their occurrence, in particular the bank must:

- (a) Ensure the compliance with legal and regulatory rules with regard to preventing and managing conflicts of interest;
- (b) Identify, in relation to each business activity carried out, the circumstances that may give rise to a Conflict of Interest;
- (c) Foster transparent and equal treatment to its counterparties/stakeholders in accordance with applicable laws;
- (d) Set rules, mechanisms, systems and controls for identifying, preventing, or managing any potential or actual conflicts of interest;
- (e) Give priority to the customers' interests in customer relationships, unless dictated otherwise by applicable laws or regulations;
- (f) Ensure that the employees have the skills and awareness to identify conflicts of interest and to act appropriately on those situations;
- (g) Prevent the continuation of the service or activity giving rise to a conflict of interest in cases where the conflict cannot be prevented nor managed using other means.

6 Conflicts of Interest at governing bodies

- (a) All identified and potential conflicts of interest involving members of the Supervisory Board or the Board of Directors, individually and collectively, should be adequately documented and discussed, decided on and duly managed by such body.

- (b) Where the impacted individual subject to a conflict of interest is the Chairman of the Supervisory Board or the Board of Directors, the said Chairperson shall adequately document and communicate to the Chairperson of the Corporate Governance Committee.
- (c) The Compliance Department shall be promptly informed of situations described above and is entitled to give its opinion and recommend all the mitigating measures deemed necessary and appropriate.

7 Conflicts of Interest involving members of the Compliance Department

In the case of a conflict of interest with any member of the Compliance Department, the Corporate Governance Committee shall be promptly informed for recommending and deciding any measures deemed necessary and appropriate.

8 Political and Association Activities

An employee's affiliation or membership of political parties or institutions must be made in such a way that the personal nature of such connection is clear.

Before accepting public offices, employees should previously inform the Compliance Department in order to determine if there are any conflicts or restrictions. For the purpose of this policy, "public offices" include all members of sovereign bodies and members of central, regional and local executive administrations.

9 Positions in other commercial companies

Staff members who want to belong to the governing bodies of a commercial company that does not belong to the Bank must comply with the current legislation and previously disclose such intentions to the Compliance Department, which will also require the approval of the Executive Committee.

10 Factors to be taken into consideration when managing Conflicts of Interest

For the purpose of complying with the requirements of identification of potential conflicts of interest and the definition of the appropriate measures and procedures for their minimisation and management, the following factors shall be taken into account:

- (a) The dimension, organisation, nature and complexity of the business activity in question; it must be ensured that the assessment covers all areas/units of the Bank's organisational structure (including, amongst other branches, representation offices) and the third parties acting on behalf of and/or in the name of the Bank (including, amongst others, subcontracted bodies) that are involved in carrying out the tasks related to the Business Activities in question;
- (b) The circumstances that could give rise to conflicts of interest resulting from the structure and commercial activities of other companies within the Bank;
- (c) The risk involved in the occurrence of the conflict situation;
- (d) The type and dimension of the foreseeable loss(es) or damage(s).

11 Internal management of potential or actual Conflicts of Interest

Without prejudice to the application of the legal and regulatory rules, this Policy constitutes the reference framework to be applied by the Bank for the purposes of identifying, minimising, managing and registering conflicts of interest.

- a) In the event of a conflict of interest infringement, the Compliance Department should be notified:
 - (i) By any Staff member, immediately upon becoming aware of a potential or actual conflict of interest;
 - (ii) By any staff member, when involving a conflict of interest related to him/her or with any Related Person;
 - (iii) By the head of the department/area, when involving a conflict of interest of the department/area.

- b) When identifying Conflicts of Interest, the Bank shall assess the particular circumstances in which the business activity was carried out, and shall be particularly careful in identifying situations in which the Bank, a person or entity in a shareholding or group relationship with

the Bank, or a third party that intervenes in the name of and/or on behalf of the Bank in a business activity task or a Relevant Person:

- (i) Has a potential interest in the outcome of a particular activity that differs from the Bank's interest;
- (ii) Is likely to make a financial gain or avoid a financial loss at the expense of a Relevant Person/Client;
- (iii) Has an interest in the results of a service provided to a Client/Bank or a transaction carried out on behalf of a Client, which is distinct from the client's interest in that outcome;
- (iv) Uses an advantage, financial or otherwise, to favour the interest of another Relevant Person, Related Person or Third party over the interest of the Bank;
- (v) Uses an advantage, financial or otherwise, to favour the interest of another Client or group of clients over the interest of a Client;
- (vi) Carries out the same activities as a Client/Bank;
- (vii) Receives or will receive, from a person other than a Client, an inducement in relation to a service provided to a Client in the form of monetary or non-monetary benefits or services;
- (viii) The Bank or a person directly or indirectly linked to the Bank by control, performs a combination of two or more of the following activities: investment research and advice, property trading, portfolio management and corporate finance business, including underwriting or selling in an offering of securities and advising on mergers and acquisitions.

11.1 Identification of Conflicts of interest – Hierarchy level

- c) The Bank (namely the highest hierarchy level of the involved departments) must, in relation to each business activity, guarantee:
 - (i) The identification of the areas/units involved in the respective business activity and the tasks carried out by them;

To this end, one shall also take into consideration situations in which there is recourse to third parties – for example, subcontracted entities – whereby such situations and entities must be expressly identified;

- (ii) The identification of Conflicts of Interest that, as foreseen in in this policy, may arise within the scope of the business activity (and its continuous updating), taking into account the task performed in the preceding item (i);

11.2 Prevention and mitigation/management measures

d) The Bank also guarantees:

- (iii) The definition – in accordance with the terms established in this Policy – of the prevention and mitigation/management measures for the conflicts referred to in item (ii) to be adopted and their respective incorporation in the internal procedures, internal regulations and internal control system and, wherever the case, in the contracts signed with third parties acting in the name of and/or on behalf of the Bank.

The measures shall include rules on the notifications to be made to the clients/stakeholders in situations of conflicts of interest, which, without prejudice to any special provisions, shall be made in accordance with this Policy.

Where the definition and/or adoption of the measures shall require, coordination with other Business Areas must be ensured.

11.3 Monitoring and Assessment

- (iv) The regular monitoring and assessment of the appropriateness and effectiveness of the measures adopted under item (iii) and the adoption of sufficient measures with a view to:
 - Correcting any deficiencies detected;
 - Adjusting, revising or modifying the measures adopted under item (iii) to changes in the assumptions that served as the basis for the definition of the measures;

11.4 Reporting and notification to the Compliance department.

- (v) The Compliance Department is permanently informed as to the questions and matters referred to in items (i) to (iv);
- (vi) The Identification of the cases in which, when the possible occurrence of a Conflict of Interest has been identified in accordance with item (ii) above, adoption of the measures provided for

- in items (iii) and/or (iv) does not provide reasonable and justified certainty that the occurrence will effectively be prevented and that the risk involved will be correctly assessed;
- (vii) The communication to the Compliance Department of situations identified under item (vi) above (including with respect to the respective risk assessment), with indication of:
- The proposed notification to be made to the Client(s)/Stakeholder about the possibility of the occurrence of the conflict and/or;
 - The proposal of non-provision of the service by the Bank given the risks involved;
- (viii) The immediate notification to the Compliance Department of the occurrence of Conflicts of Interest and the respective proposed solution;
- (ix) The maintenance of a constantly updated list of all the Conflicts of Interest that have occurred within the scope of the respective Business Activity and their respective treatment;
- (x) The provision of information to the Relevant Persons involved in the business area on their obligations in matters of Conflicts of Interest, namely with respect to the measures and procedures they must ensure in carrying out their tasks, as well as on the limitations to the exercise of other tasks or the accomplishment of personal transactions (as defined in Annex III) and related information duties;
- (xi) The presentation to the Compliance Department of information that supports the fulfilment of the obligations established in the Policy, and of the measures referred in items (iii) and (iv) above;
- (xii) The provision, to the Compliance Department, of the information or clarifications requested by that department in relation to the information provided by Business Area or to the behavior of that area under the terms of and for the purposes established in the Policy;

11.5 Resolution of an Conflict of Interests

With respect to the notifications it shall receive under item (vii) and/or item (viii) above, the Compliance Department shall:

- (a) Consult internally or externally the areas or entities it deems pertinent with a view to obtain the relevant information to assess the situation(s) in question;
- (b) Present, in cooperation with the Legal Department a proposal for resolution of the situation(s) to the Board of Directors.

12 Conflicts of Interest mitigation/management measures

The following measures are aimed to guarantee the independence of the Bank, which shall include, to the extent necessary:

- (a) Effective procedures for preventing or controlling the exchange of information between Relevant Persons, namely through:
 - (i) The definition of separate areas, identified in Internal Regulations, between which no circulation or exchange of certain information may take place;
 - (ii) The identification and updated registration of persons with access to information of restricted use or circulation;
 - (iii) The creation of an information system and/or physical barriers to the circulation of information;
 - (iv) The establishment of information duties of the Relevant Persons in relation to Personal Transactions (as defined in Annex III) involving financial instruments and/or the definition of cases in which the execution of Personal transactions is totally or partially prohibited;
- (b) The distinct supervision of the Relevant Persons whose main tasks involve carrying out activities on behalf of clients or the provision of services to clients, whenever they may have conflicting interests, including with the interests of the Bank;
- (c) The elimination of any direct relationship between the remuneration of Relevant Persons involved in a Business Activity and the remuneration or revenue generated by other Relevant Persons involved in another Business Activity in the extent that a conflict of interests may emerge between these activities;
- (d) The adoption of measures aimed at preventing or restricting any person from exercising inappropriate influence over the way in which a Relevant Person provides financial intermediation activities;

- (e) The adoption of measures aimed at preventing or controlling the simultaneous or sequential involvement of a Relevant Person in different Business Activities where said involvement may interfere with the appropriate management of conflicts of interests.

13 Compliance monitoring mechanisms

As part of the Bank's approach to conflicts of interest management, the Compliance Department will ensure the following monitoring and control mechanisms:

- a) Evaluate the application of this policy, proposing revisions and amendments to the Executive Committee;
- b) Carrying out internal evaluations regarding conflicts of interest reported;
- c) Proposing to the Internal Audit department audits and inspections to be carried out, as applicable, for situations found by the Compliance Department within the scope of its powers;
- d) Answering questions that may arise regarding conflicts of interest;
- e) Monitoring, in an ongoing basis, the measures applied to manage/mitigate any conflict of interest;
- f) Recordkeeping of all reported cases.

14 Last resort disclosure of conflicts of interest

Where the effective organisational or administrative arrangements made by the Bank to prevent conflicts of interest from adversely affecting the interest of its stakeholders are not sufficient to ensure, with reasonable confidence, that risks of damage will be prevented, the Bank will disclose the potential conflict of interest before undertaking business on its behalf.

The disclosure is a measure of last resort and shall only be used after the implementation of all appropriate and reasonable conflict management mechanisms, except when the underlying time frame requires the conflict of interest's immediate disclosure.

The Bank informs each and every person who could have a predictable impact on the communication process that the conflict of interest should only be disclosed to the stakeholder in question when all appropriate means have been depleted and that such communication depends on the prior consent of the Compliance Department.

The disclosure shall:

- (i) be made in a durable medium (i.e. in a form that enables a client to store information in an accessible way for future reference during a sufficient period of time considering the purposes of the information and one that allows the unchanged reproduction of the information stored);
- (ii) clearly state that the organisational and administrative arrangements established by the Bank to prevent or manage that conflict are not sufficient to ensure, with reasonable confidence, that the risks of damage to the interests of the stakeholder will be prevented; and
- (iii) include a specific description of the conflicts of interest that arise in the provision of the business activity, taking into account the nature of the stakeholder. In this context, the Bank shall describe the general nature and sources of conflicts of interest, as well as the risks to the client that arise as a result of the conflicts of interest and the steps undertaken to mitigate these risks. The information shall be provided with detail sufficient enough to enable the stakeholder to take an informed decision.

15 Record of services or activities giving rise to detrimental conflict of interests and annual assessment and review of this Policy

The Bank keeps and regularly updates a record of the kinds of the Business Activities carried out in which a conflict of interest entailing a risk of damage to the interests of one or more clients has arisen or, in the case of an on-going service or activity, may arise.

In this context, the Corporate Governance Committee receives on a frequent basis, and at least annually, written reports on the potential and verified conflicts of interest.

Based on this information the Bank assesses and periodically reviews, on an at least annual basis, the sufficiency and efficiency of this Policy and takes all appropriate measures to address any deficiencies. The over-reliance on the disclosure of conflicts of interest that, as predicted under section 14, is a last resort measure shall be considered a deficiency.

16 Whistleblowing

The Bank provides the appropriate channels through the Whistleblowing Policy for the reporting/whistleblowing of Conflicts of interest within the Bank were any Staff member considers this to be the appropriate to draw the matter to the attention of the Bank.

17 Penalties

Haitong Bank may take appropriate disciplinary action against anyone who knowingly violates the provisions as set out in this Policy.

18 Distribution

This Conflicts of Interest Policy is internally distributed by means of publication in the intranet and at the Bank's corporate website.

ANNEX I - List of Potential Conflicts of Interests and Mitigation Policies
List of Potential Conflicts of Interests and Mitigation Policies

Description	Conflicting Entities	Units / Departments	Mitigation Policies	Conditions: Cumulative or Exclusive
Proprietary trading while carrying out operations made by other clients	Bank v Clients	Fixed-Income and any other relevant department	1 - Physical separation of the proprietary trading desks and clients' trading desk, as well as a separation of access and apps; 2 - Employees who negotiate for the Bank's clients are forbidden from negotiating for other clients; 3 - traders are not allowed to undertake other business segments within the Bank alongside trading; 4 - Compliance should register any possible conflicts of interest on the B-next application.	Cumulative
Bank's acquisition of any securities when there are Clients that have requested them for the same price or for a higher price.	Bank v Clients	Fixed-Income and any other relevant department	1 - Physical separation of the proprietary trading desks and clients' trading desks, as well as a separation of access and apps; 2 - Orders that are transmitted by the prop trading desk to the client's trading desk will be executed in strict compliance with the applicable rules for transmitting and executing orders (sequential entry) and, for aggregated orders, it should be ensured that the Bank's interests will not override Client's interests; 3 - Compliance should register any possible conflicts of interest on the B-next application.	Cumulative
The Bank sells its own securities instead of selling amounts of the same category whose sale was also ordered by its Clients at the	Bank v Clients	Fixed-Income and any other relevant department	1 - Physical separation of the proprietary trading desks and clients' trading desks, as well as a separation of access and apps; 2 - Orders that are transmitted by the prop-trading desk to the client's trading	Cumulative

same price or at a lower price.			desk will be executed in strict compliance with the applicable rules for transmitting and executing orders (sequential entry) and, for aggregated orders, it should be ensured that the Bank's interests will not override Client's interests.	
Inequality of criteria in apportion or order allocation systems that affect clients and that result in a beneficial situation for the Bank or Employees.	Bank v. Clients Bank v. Market Among Clients	Equities, Fixed-Income, ECM-DCM,	Clear and equal criteria.	
<i>Idem</i> , concerning the allocation of own portfolio shares of the Coordinating Banks of an Offer headed by the Bank.	Bank v. Clients Bank v. Market Among Clients	ECM-DCM	Clear and equal criteria.	
Proprietary trading, agency, and discretionary management desks' access to Research reports prior to its publication / distribution among Research Clients.	Bank v. Clients Bank v. Market	Research and other units which receive the Bank's Research	1 - Physical separation of the Research Area; and 2 - Absolute prohibition of disclosure of information about the Research Analysis before disclosing the reports to the Research Clients (the disclosure can be simultaneous - the Bank's units act as Research Clients). The Global Research Policy should be followed.	Cumulative
Placing Securities in issues in which the Bank acted as firm underwriter.	Bank v. Clients	ECM-DCM, Fixed Income	Disclosure	Cumulative
Employees that manage accounts they own or in which they have a direct or indirect interest (through a third party).	Employees and their interests outside the Bank	Asset Management	1 - Absolute prohibition; and 2 - Portfolio discretionary management employees are forbidden from being Clients of the Equities Division.	
Transactions made by Research and Compliance employees (and related persons) on securities of issuer companies covered by the Research Area.	Employees and their interests outside the Bank	Research, Compliance	Partial prohibition that should follow the Global Research Policy.	
Illegitimate use made by Directors or Employees of insider	Bank v. Clients	Structured Finance, ECM -DCM, M&A, Clients Division	1 - Absolute prohibition of using information for illegitimate purposes, namely in any operation in which the	Cumulative

ANNEX II- Additional guidelines in respect of certain investment services or activities

Without prejudice to the generic indications and the general principles foreseen in this Policy, the Bank shall, in line with the applicable legal framework, employ additional requirements when providing certain investment services or activities.

Additional guidelines in relation to investment research and marketing communications

The Bank shall, by virtue of producing or arranging for the production of investment research that is intended or likely to be subsequently disseminated to its clients or to the public, under their own responsibility or that of a member of their group, ensure the implementation of all the measures set out in this Policy in relation to the financial analysts involved in the production and other relevant persons whose responsibilities or business interests may conflict with the interests of the persons to whom the investment research is disseminated.

The above-mentioned procedures are not required if the person responsible for the research is not a member of the Bank's group, the Bank does not substantially alter the recommendations within the investment research, the investment research is not presented as having been produced by the Bank and the Bank verifies that the producer of the research is subject to the same legal requirements or has established a policy meeting those requirements.

The same rules shall be applied to the production or dissemination of marketing communications.

In this context, the Bank shall have in place arrangements designed to ensure that:

- (a) financial analysts and other relevant persons do not undertake personal transactions (as defined in Annex III) or trade, other than as market makers acting in good faith and in the ordinary course of market making or in the execution of an unsolicited client order, on behalf of any other person, including the Bank, in financial instruments to which investment research relates, or in any related financial instruments, with knowledge of the likely timing or content of that investment research which is not publicly available or available to clients and cannot readily be inferred from information that is so available, until the recipients of the investment research have had a reasonable opportunity to act on it;

- (b) in circumstances not covered by point (a), financial analysts and any other relevant persons involved in the production of investment research do not undertake personal transactions (as defined in Annex III) in financial instruments to which the investment research relates, or in any related financial instruments, contrary to current recommendations, except in exceptional circumstances and with the prior approval of a member of the firm's legal or compliance department;
- (c) a physical separation exists between the financial analysts involved in the production of investment research and other relevant persons whose responsibilities or business interests may conflict with the interests of the persons to whom the investment research is disseminated or, when considered not appropriate to the size and organisation of the firm as well as the nature, scale and complexity of its business, the establishment and implementation of appropriate alternative information barriers;
- (d) the Bank itself, financial analysts, and other relevant persons involved in the production of the investment research do not accept inducements from those with a material interest in the subject matter of the investment research;
- (e) the investment firms themselves, financial analysts, and other relevant persons involved in the production of the investment research do not promise issuers favourable research coverage.

Additional general guidelines in relation to underwriting or placing

While engaged in the provision of advice on corporate finance strategy and the service of underwriting or placing of financial instruments the Bank shall have in place a centralised process to identify all of its underwriting and placing operations and record such information, including the date on which the Bank was informed of potential operations of that kind.

In this context, the Bank shall identify all potential conflicts of interest arising from other activities and implement appropriate management procedures. In cases where the Bank cannot manage a conflict of interest by way of implementing appropriate procedures, it shall not engage in the transaction.

Additional guidelines in relation to pricing of offerings in relation to issuance of financial instruments

The Bank shall have in place systems, controls and procedures to identify and prevent or manage conflicts of interest that arise in relation to possible under-pricing or over-pricing (in comparison, when possible, to the market prices for the nature and volume of the issue) of an

issue or involvement of relevant parties in the process. In particular, the Bank shall, as a minimum requirement, establish, implement and maintain internal arrangements to ensure both of the following: (a) that the pricing of the offer does not promote the interests of other clients or the Bank's own interests in a way that may conflict with the issuer client's interests; and (b) the prevention or management of a situation where persons responsible for providing services to the Bank's investment clients are directly involved in decisions about corporate finance advice on pricing to the issuer client.

Additional guidelines in relation to placing

The Bank shall establish, implement and maintain effective internal arrangements to prevent or manage conflicts of interests that arise where persons responsible for providing services to the Bank's investment clients are directly involved in decisions about recommendations to the issuer client on allocation.

In this context, the Bank shall not accept any third-party payments or benefits which result from:

- a) an allocation made to incentivise the payment of disproportionately high fees (in comparison, when possible, to the market prices for the nature and volume of the operation) for unrelated services provided by the Bank ('laddering'), such as disproportionately high fees (in comparison, when possible, to the market prices for the nature and volume of the operation) or commissions paid by an investment client, or disproportionately high volumes (in comparison, when possible, to the market) of business at normal levels of commission provided by the investment client as compensation for receiving an allocation of the issue;
- b) an allocation made to a senior executive or a corporate officer of an existing or potential issuer client in consideration for the future or past award of corporate finance business ('spinning');
- c) an allocation that is expressly or implicitly conditional on the receipt of future orders or the purchase of any other service from the Bank by an investment client, or any entity of which the investor is a corporate officer.
- d) in any other circumstances not compliant with the legal requirements established by Article 24 of Directive 2014/65/UE.

Additional guidelines in relation to advice, distribution and self-placement

The Bank shall have in place systems, controls and procedures to identify and manage the conflicts of interest that arise when providing an investment advice to an investment client to

participate in a new issue, where it receives commissions, fees or any monetary or non-monetary benefits in relation to arranging the issuance.

Any commissions, fees or monetary or non-monetary benefits shall comply with the requirements in Article 24(7), 24(8) and 24(9) of Directive 2014/65/EU.

The benefits documented above shall, as applicable, be reflected in the firm's inducements arrangements.

The Bank, while providing the placement of financial instruments issued by themselves or by entities within the same group, to their own clients, including their existing depositor clients, or investment funds managed by entities of their group, shall establish, implement and maintain clear and effective arrangements for the identification, prevention or management of the potential conflicts of interest that arise in relation to this type of activity. Such arrangements shall include consideration of refraining from engaging in the activity where conflicts of interest cannot be appropriately managed so as to prevent any adverse effects on clients.

Additional guidelines in relation to lending or provision of credit in the context of underwriting or placement

Where any previous lending or credit to the issuer client by the Bank, or an entity within the same group, may be repaid with the proceeds of an issue, the Bank shall have arrangements in place to identify and prevent or manage any conflicts of interest that may arise as a result thereof.

In this context, where the arrangements taken to manage conflicts of interest prove insufficient to ensure that the risk of damage to the issuer client would be prevented, the Bank shall disclose to the issuer client the specific conflicts of interest that have arisen in relation to their, or group entities', activities in a capacity of credit provider, and their activities related to the securities offering.

The Bank shall share the information about the issuer's financial situation with group entities acting as credit providers provided that this does not breach information barriers set up by the Bank to protect the interests of a client.

ANNEX III - Personal Transactions

Scope

For the purpose of this Policy, a Personal Transaction shall mean a transaction involving a financial instrument carried out by a Relevant Person, or on his behalf, provided that:

- a) The Relevant Person is acting outside the scope of his functions in his professional capacity, or
- b) The transaction is carried out on behalf of any of the following persons:
 - (i) the Relevant Person;
 - (ii) the Related Person;
 - (iii) A person in respect of whom the Relevant Person has a direct or indirect material interest in the outcome of the trade, other than obtaining a fee or commission for the execution of the trade;

Personal Transactions

The Bank implements the necessary arrangements in order to prevent any Relevant Person, who is involved in activities that may give rise to a conflict of interest or who has access to inside information or confidential information relating to clients or transactions with or for clients, of, by virtue of an activity carried out by him on behalf of the Bank, from entering into a transaction:

- a) that that person is, under the applicable legal regime, prohibited from entering into, namely regarding the rules of market abuse prevention;
- b) that involves the illegal or improper disclosure of that confidential information;
- c) that conflicts or is likely to conflict with a legal obligation of the Bank.

Without prejudice to the applicable legal provisions regarding the unlawful disclosure of information, the Bank shall ensure that Relevant Persons do not disclose, other than in the

normal course of their employment or contract for services, any information or opinion to any other person where the Relevant Person knows, or reasonably ought to know, that as a result of that disclosure that the other person will or would be likely to take either of the following steps:

- (a) to enter into a transaction in financial instruments which, if it were a personal transaction of the Relevant Person, would be unlawful or subject to special criteria;
- (b) to advise or procure another person to enter into such a transaction.

In this regard, the Bank will implement the necessary procedures and measures in order to ensure that: (a) each Relevant Person is aware of the restrictions on personal transactions, and of the measures established by the Bank in connection with personal transactions and their disclosure; (b) the Bank is informed promptly of any personal transaction entered into by a Relevant Person, either by notification of that transaction or by other procedures enabling the Bank to identify such transactions; (c) a record is kept of the personal transactions notified to the Bank or identified by it, including any authorisation or prohibition in connection with such a transaction.

By entering into an outsourcing arrangement, the Bank shall ensure that the firm to which the activity is outsourced maintains a record of personal transactions entered into by any Relevant Person and provides that information to the Bank promptly on request. The above-mentioned procedures shall not be applied to the following personal transactions:

- (a) personal transactions effected under a discretionary portfolio management service where there is no prior communication in connection with the transaction between the portfolio manager and the Relevant Person or other person for whose account the transaction is executed;
- (b) personal transactions in undertakings for collective investments in transferable securities (UCITS) or alternative investment funds (AIFs) that are subject to supervision under the law of a Member State which requires an equivalent level of risk spreading in their assets, where the Relevant Person and any other person for whose account the transactions are executed are not involved in the management of that undertaking.
