

Key Investor Information

This document provides key investor information about this fund ("Fund"). It is not marketing material. The information is required by law to help investors understand the nature and the risks of investing in this Fund. Investors are advised to read it so to make an informed decision about whether to invest.

White Fleet III - Haitong Flexible Fund, a subfund of White Fleet III

Share Class
ISIN
Management Company

C
LU1679668027
MultiConcept Fund Management S.A., Luxembourg

Objectives and investment policy

This Mixed Fund is actively managed without reference to any benchmark aiming to achieve long-term capital growth. It mainly invests, either directly or indirectly via shares or units of Target Funds (including exchange traded funds, ETFs), in global equities, equity type securities and in fixed income securities, floating rate notes, money market instruments, convertible bonds and contingent convertible bonds of public, semi-private and private issuers with a minimum rating of BBB- at the time of acquisition. In addition, the Fund may invest up to 10% of its net assets in non-investment grade fixed income or floating-rate securities with a minimum rating of B- at the time of acquisition. The Fund invests without being limited to a specific geographic scope, industrial sector, currency or capitalization of the issuer. The balance between the different markets and instruments will be

at the discretion of the Investment Manager, whereas investments in Emerging Markets will not account for more than 25% of the Fund's net assets. The Fund may invest in foreign exchange options and forwards, as well as options and futures on currencies. In order to achieve its objective, the Fund can use derivative instruments to protect against movements in currencies and security prices and for efficient portfolio management. The investor can buy or sell shares on a daily basis (Luxembourg bank business days). This Share Class does not make regular distributions. The Fund shall bear the costs of standard brokerage and bank charges incurred by the Fund through securities transactions in relation to the portfolio. These charges are not included in the "Charges" section of this document.

Risk and reward profile

Risk profile

The Fund's risk and reward profile shows the variations in value an investment in this Fund would have undergone over the past five years, whereby simulated performance data is used in the case of missing history. The Fund's risk rating may change in the future. Please note, higher possible gains generally also mean higher possible losses. The lowest risk category does not mean that the Fund is risk free.

Why is the Fund in the specific category?

Amongst other, equity prices mainly reflect the expected prospects of firms, as estimated by market participants. Expectations tend to fluctuate more strongly in times of higher uncertainty. Investments in bonds are affected by changes in interest rates, the size of the market segment, the currency allocation, the economic sector and the credit quality of the bonds. The Fund holds mainly investments with generally good credit quality. Also the Fund intends to avoid any currency risk. The use of derivatives may lead to leverage and to an amplified reaction to market movements. The Fund may have a low degree of issuer diversification which makes it more vulnerable.

Are there any other particular risks?

The Fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- **Credit risk:** Issuers of assets held by the Fund may not pay income or repay capital when due. Part of the Fund's investments may have considerable credit risk.
- **Liquidity risk:** Assets cannot necessarily be sold at limited cost in an adequately short timeframe. Part of the Fund's investments may be prone to limited liquidity. The Fund will endeavor to mitigate this risk by various measures.
- **Counterparty risk:** Bankruptcy or insolvency of the Fund's derivative counterparties may lead to payment or delivery default. The Fund will endeavor to mitigate this risk by the receipt of financial collateral given as guarantees.
- **Event risk:** In the case a trigger event occurs contingent capital is converted into equity or written down and thus may lose substantially in value.
- **Operational risk:** Deficient processes, technical failures or catastrophic events may cause losses.
- **Political and Legal risks:** Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk.
- **Sustainability risks:** Sustainability risks are environmental, social or governance events or conditions that can have a material negative effect on the return, depending on the relevant sector, industry and company exposure.

Charges

| One-off charges taken before or after the investment | |
|--|----------------|
| Entry charge | Not applicable |
| Exit charge | Not applicable |
| Switch charge | Not applicable |
| This is the maximum amount that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out. | |
| Charges debited to the Fund over a year | |
| Ongoing charge | 1.53% |

| Charges debited to the Fund under certain specific conditions | |
|---|--|
| Performance fee | 10% if the Net Asset Value is above its Reference Value (the previous NAV adjusted by the average daily twelve months EURIBOR) |

Charges debited to investors are used to pay for the cost of running the Fund, including marketing and distribution costs. These charges reduce the potential growth of the investment.

The **entry** and **exit charges** shown are the maximum figures that can be charged to the investor. Investors may obtain the fees effectively applied from their individual financial adviser or distributor.

The **ongoing charges** figure is based on last year's expenses for the year ending September 30, 2021. This figure may vary from year to year. It excludes

performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares/units in another collective investment undertaking.

The Investment Manager is entitled to a **performance fee** if the net asset value (NAV) of the Fund exceeds a predefined reference value, subject to additional conditions set forth in the prospectus. A performance fee may be charged and paid, based on the NAV calculation, even if at the end of the reference period

the NAV of the relevant share/unit class is lower than it was at the beginning of the reference period. There may also be circumstances where a performance fee will be incumbent on investors who are redeeming from the Fund during the reference period while the value of the NAV applicable to the redemption is lower than the value of the NAV on the subscription date. For further information about charges, investors should refer to chapter 8 of the Fund's prospectus, which is available at <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

Past performance

Performance disclaimer

Please note that performance in the past is not a reliable indicator of future results.

Charges and fees

The performance chart shows the Fund's investment returns as a percentage change in NAV from one year-end to the next in the Share Class currency.

The fees for the ongoing fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

* For this reference period, no data is available for the Share Class. The Share Class was launched on June 28, 2018.
